

Day 6

Day 5 : Classes & Object

Day 6 : Singleton in Object , Comparison Class & Object

Case class & Object .

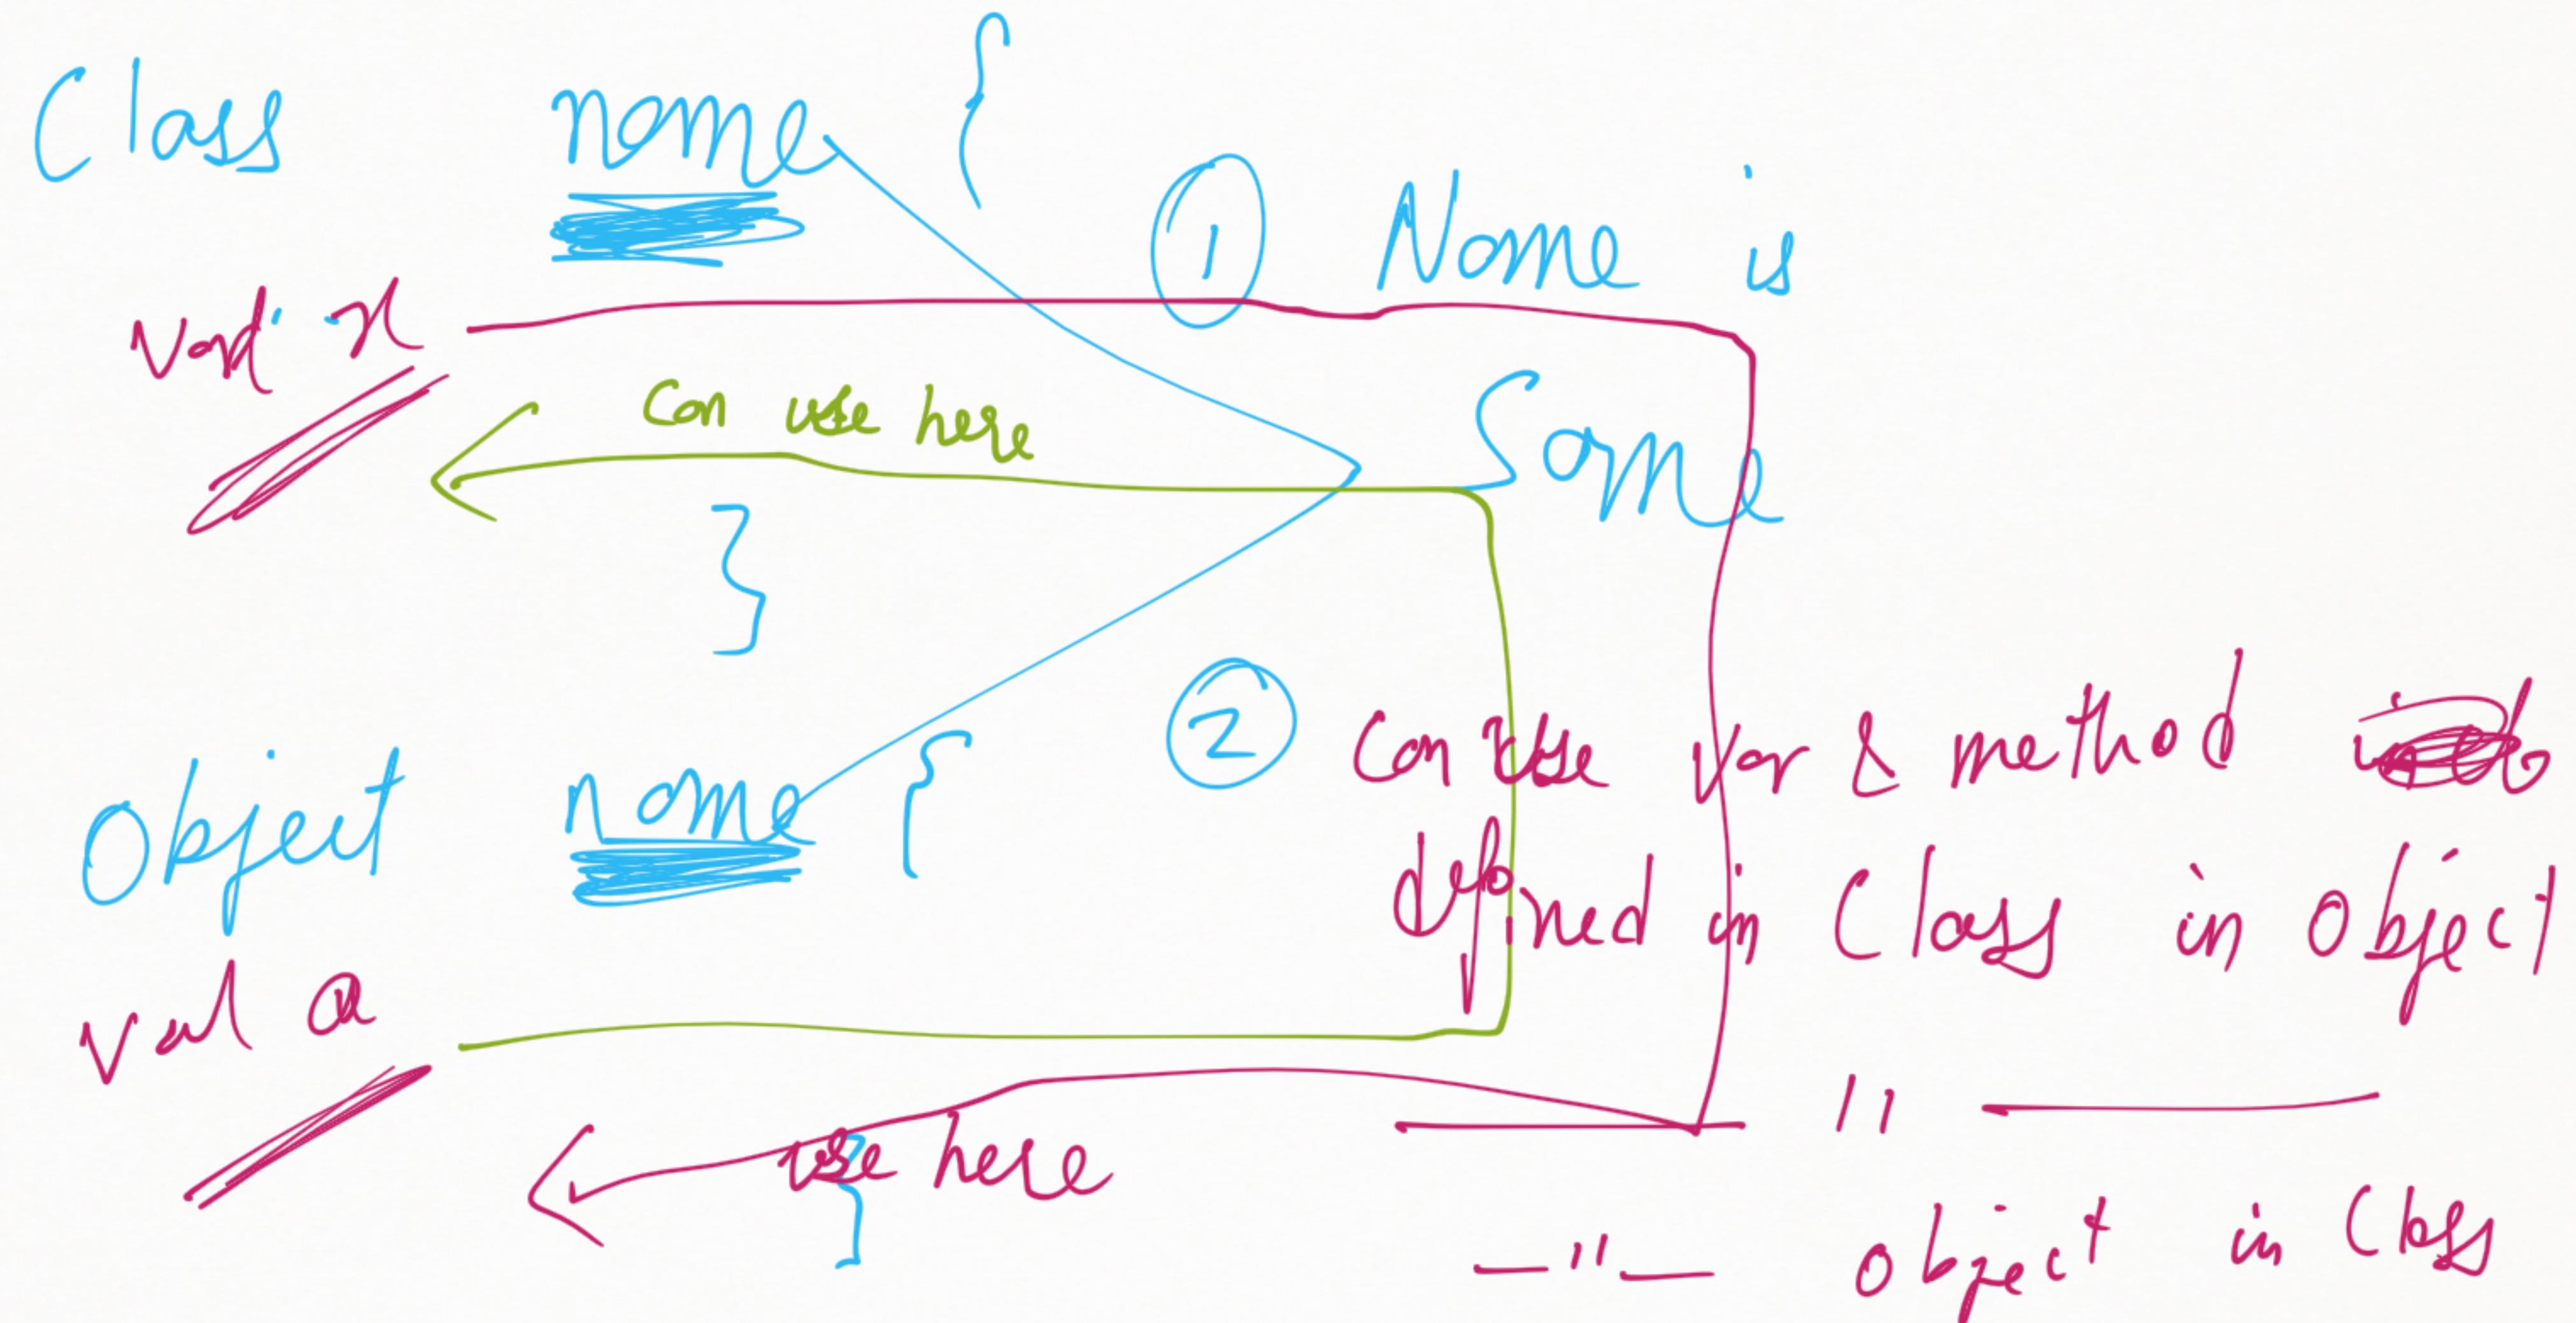

Singleton Object

```
Object
employee {
    x = 2
    y = 2
    println ("abc")
}
```

```
Object class demo {
    def main (arg): {
        val a = new employee
        println (employee.n)
    }
}
```

3

Composition Class & Object

* Regular Class

* Lot of extra code autogenerated

1] No need to write new.
